No.T-206/6

October 15, 2012

All the beneficiaries of Mohali Ph-I housing project

Sub: CGEWHO' s Mohali Ph-I project

Sir/ Madam,

As you are aware, the Mohali Ph-I project is almost on the verge of completion and we are expecting to obtain electricity connection from Punjab State Power Corporation by Nov 2012 as the design and drawings towards electricity works were approved finally by them on 31.07.2012. Afterwards, the work was taken up and it is expected that all external electrical works shall be completed by Nov '12 to enable Punjab State Power Corporation to charge the transformers towards electrification of the complex. All other civil and electrical works are on the verge of completion and the sewer line as well as water supply line have already been connected to the project from the concerned points. The matter regarding issuance of completion certificate towards the project is also under discussion with municipal authorities and on obtaining the power supply, they shall be able to give the completion certificate to enable CGEWHO hand over the DUs. It is expected that all these activities as well as completion of balance minor works shall be done within a period of two months to ensure commencement of handing over of the DUs to all beneficiaries afterwards.

2. As you are aware, due to steep hike in cost towards escalation, the project is presently being executed on deficit. The details towards escalation were already intimated to you vide our letter no.T-110/2 dated 22.06.2011. Though the project was further delayed for around 9 months from last communication, CGEWHO is in a position to keep the cost within the escalation as already intimated to you vide our letter no.T-110/2 dated 22.06.2011. As per the Scheme Brochure in General, the beneficiaries are required to pay the escalation along with the final instalment on offer of possession. However, with reference to clause no. 19, the adjustment in payment schedule become necessary to mitigate the shortfall / deficit, CGEWHO is offering an option to all beneficiaries to pay part of the escalation now, so that they can reduce their financial liability on their final instalment. Accordingly, a demand notice is being issued to all beneficiaries from the Finance D'te so that the progress of the project shall be streamlined by avoiding the deficit financing.

3. As you are aware, the second instalment was called with last date of payment as 30.07.2008. As per the scheme brochure, CGEWHO should have completed the project within 30 months from the date of commencement of construction and thus the date of completion as per scheme brochure works out to 30.01.2011. However, by freezing the labour and material indices

as on Oct. '2010, CGEWHO could keep the final cost of the DU within 25% (approx.) as informed vide this office letter dated 22.06.2011.

4. Hope, you shall bear with us and wait for our further communication with regard to draw of specific units as well as issued of final call up letter which is supposed to happen within next two months.

Yours faithfully,

(M. K. Maity)
